**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION*****Response to Amendment***

The reply filed on December 18, 2003 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

The submission of newly-amended claims 1-4 and 7-8 presents all pending claims as directed to an invention that is independent or distinct from the invention originally claimed for the following reasons. The originally-presented claims, drawn to a superoxide scavenger and beverage, and the newly-presented state of claims, directed to a process of making a superoxide scavenger and beverage, are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make another materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product as claimed can be made by another and materially different process, such as one utilizing different starting materials and/or process steps. For example, it may be made via a process where oxygen is not directly supplied to the fermenting bean liquor, containing yeast. As had been stated previously on the record, patentability of the product shall not be solely determined by the manner in which the invention was made, and an examination upon the *product itself*, has been carried out.

Since applicant has received an action on the merits for the originally presented invention (i.e. the product), this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-4 and 7-8 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

The amendment filed on December 18, 2003, amending all claims which were drawn to the originally-presented and elected invention, to present only claims drawn to a non-originally-presented, non-examined and non-elected invention, is **non-responsive** (MPEP § 821.03), and 37 CFR 1.111. There are no remaining claims which are readable on the originally presented and elected invention.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of **ONE (1) MONTH or THIRTY (30) DAYS**, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
